Courtship Our clients know the value in having video footage of their special day. Preserve your wedding day memories with unedited, original footage, providing a simple, yet unforgettable piece of work. Clients may want one or more cameras capturing the day(s) events with all the footage provided to them on the original tapes or transferred directly to DVD.

Engagement The Engagement package is tailored for clients who like to have a final edited DVD which take the best of the wedding ceremony, reception, and other events tied all together into a cohesive program that all your friends and family would enjoy.

Matrimony The Matrimony package is for our clients who seek to have their timeless day on DVD. We give considerable time to each client, working with them to create their own LOVE STORY FEATURETTE². We capture introductory interviews, record couples doing their favorite activities, film all the fun at the reception, and much more. There are generally no limits to creating your dream Matrimony Package. Many clients include a Photo Montage filled with pictures of the couple growing up or showing their dating memories.

1 = Edited video includes music, titles, transitions, etc. Without this option, you will receive the raw footage on DVD.
 2 = Love Story Featurette includes interviews with the bride and groom along with other family members or friends. Expanding the scope of more traditional wedding videos, the Love Story is a wonderful way to establish your history as a couple and how you feel for one another. Through a series of intimate questions, a narrative framework is created for your video that documents the uniqueness of your relationship.
 3 = Includes up to 100 photos.
 4 = Highlights are a shorter version of your wedding day (usually 10-15 minutes) that can be shown to family and friends that include only the most special moments.
